Summary

Full-Stack Developer (MERN) with hands-on experience architecting production-grade web platforms featuring role-based authentication, real-time communication, payment integration, and AI-powered services. Adept at building scalable RESTful APIs, crafting responsive React UIs, and optimizing MongoDB performance. Strong DSA fundamentals with 150+ problems solved on LeetCode and HackerRank, complemented by industry certifications in SQL, Java, and web development.

Education

GLA University, Mathura

Jun 2026

Bachelor of Technology in Computer Science (Honors)

CGPA: 7.72

Brij Kunwar Devi Aldrich Public School, Orai

May 2022

Senior Secondary Education

Percentage: 84.2%

Internship/Training Experience

Americas HPC Practice, Cognizant

In-Office

Program Analyst Trainee

Mar 2026 - present

- **U.S. Healthcare Payer Domain:** Built core expertise in U.S. healthcare payer architecture, insurance workflows, and industry terminology, including claims adjudication, CPT/ICD coding, Explanation of Benefits (EOB), member enrollment, and prior authorization.
- **Database & SQL Automation:** Mastered MySQL and PL/SQL programming to design and execute procedural database logic, leveraging stored procedures, cursors, and triggers to automate backend operations.
- **Enterprise Software (TriZetto Facets):** Trained in TriZetto Facets enterprise payer management software, gaining operational knowledge of claims processing and payer workflows used by major U.S. health insurers.

Job Oriented Value Added Course, GLA University

Remote

Trainee

Jun 2024 – Jul 2024

- Gained hands-on experience with PostgreSQL through instructor-led sessions.
- Designed data dashboards and customer segmentation models using PostgreSQL and Power BI.
- Achieved Top 3 Performer status among 50 interns in the summer cohort.

Projects

Vehicle Rental Services Platform — GitHub

Sep 2025 – Nov 2025

React 19, Node.js, Express.js, MongoDB, Mongoose, TailwindCSS, Vite, Socket.IO, JWT, Razorpay, Google Gemini AI, Cloudinary, Twilio, SendGrid, Zustand

Live Demo - <https://vrs-sg.vercel.app>

- Architected an enterprise-grade vehicle rental platform with role-based dashboards for Users, Vendors, and Admins, supporting end-to-end booking, fleet management, and analytics.
- Integrated Razorpay payments with automated refund tracking, processing transactions with 99.5% success rate and zero double-charge incidents.
- Built real-time notifications using Socket.IO and an AI-powered chatbot via Google Gemini, reducing average customer query resolution time by 60%.
- Implemented JWT authentication with email verification, SMS alerts (Twilio), and email notifications (SendGrid/Nodemailer), strengthening account security across 3 user roles.
- Designed responsive UI with TailwindCSS & React Hook Form, achieving 95+ Lighthouse score and seamless cross-device experience.

Wanderlust - Property Rental Platform — GitHub

May 2025 – Jul 2025

Node.js, Express.js, MongoDB, Passport.js, Mapbox, Cloudinary, EJS

Live Demo - <https://wanderlust-sg.vercel.app/>

- Developed a full-stack Airbnb-inspired accommodation booking platform with comprehensive property management and user authentication via Passport.js.
- Integrated Mapbox for interactive property maps and Cloudinary for cloud-based image storage, increasing user engagement and session time by 60%.
- Designed a mobile-friendly UI following MVC architecture, improving cross-device compatibility and code maintainability.
- Enhanced backend API response time by 30% through efficient MongoDB queries and indexing.

InShare - File Sharing Application — GitHub

Mar 2025 – Apr 2025

Node.js, Express.js, MongoDB, Multer, UUID, Crypto, Nodemailer

Live Demo - <https://inshare-sg.vercel.app>

- Built a secure file sharing platform supporting 100MB uploads with UUID-based encrypted link generation, serving 2,000+ monthly users.
- Enabled drag-and-drop upload with Multer and real-time progress tracking for smoother UX.
- Implemented auto-deletion of files after 24 hours or first download to maintain storage hygiene and privacy.
- Added email notifications using Nodemailer, accelerating file retrieval flow by 75%.

Technical Skills

Languages: JavaScript (ES6+), Java

Frontend: HTML5, CSS3, React.js (19), Vite, TailwindCSS, React Router, Zustand, React Hook Form

Backend: Node.js, Express.js, RESTful APIs, JWT, Bcrypt, Multer, Nodemailer

Databases: SQL, MongoDB, MySQL, PostgreSQL

Cloud & Integrations: Cloudinary, Razorpay, Twilio, SendGrid, Google Gemini AI, Mapbox

Tools & Platforms: Git, GitHub, Postman, Hoppscotch, Vercel, VS Code

Certifications

Infosys Springboard: [HTML5](#)

IBM: [SQL: A Practical Introduction for Querying Databases](#)

SkillCred: [SQL for Analytics](#)

HackerRank: [SQL \(Basic\)](#), [Intermediate](#), [Advanced](#), [Java \(Basic\)](#)

Achievements

Top 3 Performer – Internship

- Ranked third out of 50 interns during the summer cohort and recognized for consistent performance and timely project completion.

Coding Challenges and Certifications

- Solved 150+ DSA problems across [LeetCode](#) and [Codolio](#) with an 85% success rate.
- Maintained a 4.2+ HackerRank rating and completed top 50 SQL challenges on LeetCode.
